Hi, I am Al-ameen Olanrewaju

About

I'm Al-ameen Olanrewaju, a self-taught Full-Stack Developer and Mobile App Developer from Osun State, Nigeria. In less than a year, I've built strong skills in both frontend and backend web development as well as mobile app development using MIT App Inventor. I'm passionate about writing clean, efficient code and building real-world solutions. I've sharpened my skills through platforms like Ustacky, Stack Junior, Web3Schools, and freeCodeCamp, and I'm actively seeking full-time opportunities where I can contribute, grow, and make an impact.

Skills

Backend: Python, Flask, PostgreSQL, MySQL

Frontend: HTML, CSS, JavaScript, Bootstrap

Mobile: MIT App Inventor

Tools: Git, GitHub, REST APIs, SQLAlchemy

Languages: HTML (3 projects), JavaScript (3 projects), Python (3 projects), CSS (2 projects), Mako (2 projects), Procfile (2 projects)

Projects

Afrigen

Afrigen V2 is an AI-powered marketing and campaign generation platform designed to automate the creation of high-quality marketing assets including strategies, blogs, newsletters, social media posts, images, videos, and voiceovers.

Python, HTML, JavaScript, CSS, Mako, Procfile

Waj Vtu

Your essentials,
all in one place.
Buy airtime and data, pay bills, and manage your balance from one reliable wallet.

Python, HTML, JavaScript
